

LED grid planning sheet for Python

Student name:

In Python, larger numbers make the LEDs glow more brightly.

```
display.show(Image('00000:'  
                    '33333:'  
                    '55555:'  
                    '77777:'  
                    '99999'))
```
